

"Melange" is a mixture of different elements.

RSWM EDGE™ Melange yarns blend together two or more dyed and non-dyed cotton and other fibres to give a range of shades and patterns that lends not only an unique attractive appearance but also a smooth feel.

This mix of fibres does not lose colours ever and can be used for comfort in a huge variety of t-shirts, uppers, trousers, under garments, swim wear, socks, bed sheets, curtains, towels.

The use of slubs, chain and stretch attachment open a wide range of products only possible in melange yarns.

“ Spinning together dyed & non-dyed fibres for smooth feel and permanent uniquely rich appearance.”

Size of hang tag:
1.45" X 3.74"

Rules of acquiring tags:

5 HT/kg for garments that contain at least 50% RSWM EDGE™ Melange yarn.

*Final decision of issuing the hang tag lies with RSWM Ltd. The garments need to confer with certain standards specified and the values indicated are only an estimate and the product will be tested to determine the tag's features.
